

MGCP100G

Suitable for diesel engine with machinery GOV or main propulsion system.

Product Code : 6030029

Power Supply : DC(8~35)V

Case Dimensions : 278*180*245(L*W*H)(mm)

Panel Cutout : 120*65, 4*M6 screw(mm)

Operating Temp. : (-25~+70)°C

COMPLETE DESCRIPTION

1. Suitable for diesel engine with machinery GOV or main propulsion system.
2. Local/remote modes for achieving local start/stop and remote start/stop.
3. With LCD for displaying water temperature, oil pressure, speed, battery voltage, runtime, number of starts;

4. All parameters can be set via controller on site, convenient and efficient;
5. With push-buttons of self-checking, alarm reset and mute, easy to operate.
6. Idle/high speed knob, emergency push-button and electronic governor can be built in.
7. Real-time clock and event log, convenient for maintenance and troubleshooting;
8. Operating voltage: (8-35)V
9. Operating conditions: Temperature: (-25~+70)°C Humidity: (20~93)%
10. CCS certificate and IP44 protection class;
11. Case dimensions(L*W*H)(mm): 278*180*245(except shock absorber)
12. Panel cutout(L*W*H)(mm): 120*65, 4*M6 screw;
