

## DOUT16B

DOUT16B Digital Output Module is an expansion module which has 16 auxiliary digital output channels. DOUT16B data is transmitted to DOUT16B output module by HMC9000/HMC6000 for processing via CANBUS.

Product Code : 6030012

Power Supply : DC(18-35)V

Case Dimensions : 161.6 x 89.7 x 60.7(mm)

Operating Temp. : (-25~+70)°C

Weight : 0.6kg

## COMPLETE DESCRIPTION

DOUT16B Digital Output Module is an expansion module which has 16 auxiliary digital output channels. DOUT16B data is transmitted to DOUT16B output module by HMC9000/HMC6000 for processing via CANBUS.

## TECHNICAL PARAMETERS

Parameter	Contents
Working Voltage	DC18.0V~ DC35.0V continuous power supply
Power Consumption	<5W
Programmable relay output 1-16	7A Connected to common output port.
Case Dimension	161.6mm x 89.7mm x 60.7mm
Working conditions	Temperature : (-25~+70)°C Humidity : (20~93)%RH
Storage conditions	Temperature : (-25~+70)°C
Weight	0.60kg
